

Docker - Registry

Docker Registry

Docker Registry

- Centralized location to store and distribute Docker images
- Docker public registry – Dockerhub
- We can setup private Docker registry
- We can use pull and push to work with registry
- Other types
 - Docker registry – Docker Private Registry
 - Docker Hub – Docker public Image Registry
 - Docker trusted registry **DTR** – For Docker enterprise
 - Private third party registry – **ECR** – AWS Elastic Container Registry, **Jfrog** etc
